

Allow Us To Be Your Family's Very Own Santa Claus

by Antoinette Taus

Christmas is just around the corner! The months certainly go by at the blink of an eye! It's that time of the year again for being merry and giving...that time for sharing our blessings and making sure our families feel loved. Manila Forwarder takes pride in saying that we have always played a big part in the Christmas of many families in the Philippines and all over the world. It's the busiest time of the year for many and it definitely is for us! This is a time of the year that you cannot take any risks...most especially since it involves the happiness of our families during the holidays. It's no wonder when the "ber" months begin, Manila Forwarder's 24/7 phone lines start getting tied up and our container leaves our secured warehouse on a daily basis. It's obvious that when it comes to trusting a company with your family's happiness, we're the one to go straight to...24/7 Rekta ka dito!

Manila Forwarder, LLC is the pioneer in the merging of old system of balikbayan box shipping and the use of internet and other advance technology. And, talking about family, I can truly say that we here at Manila Forwarder are an extended family. Every day at work is like meeting up with close friends in a quest to bring quality service to fellow Filipinos. Its best assets are the people behind the company. It is composed of experts in their chosen endeavor both in military and civilian communities. Established in 1998, the company is based in Los Angeles, CA and has made a reputation as the fastest, economical and most efficient door-to-door delivery service to any point in the Philippines.

Quality of service is defined not in just one or two factors but in many other ways. Aside from being licensed and bonded by the US Federal Maritime Commission and the trusted people behind the company, we take much pride in our trademark Jumbo Box™. It is noticeably much thicker, therefore more impenetrable against various elements. More so, it is one third bigger than most balikbayan boxes available, therefore saving you valuable time and money. What can fit into 3 regular balikbayan boxes can already fit into just 2 of our Jumbo Boxes, thus giving you much more for your money.

Manila Forwarder is also the only company that seals your balikbayan boxes with tamper proof seal. At the company's secured warehouse, all the boxes gets strapped and boxes bound for Visayas and Mindanao get wrapped with industrial strength plastic.

The boxes information immediately gets entered in the company's computer system to account for each box that enters the warehouse. Clients can then track their packages online.

We also have our very own Suki Card for all our valued customers wherein, for every box shipped, the card will be marked. So that for every number of boxes shipped, you get to send a box for free! And what's even better is that it is valid for an unlimited period of time. But it doesn't stop in California. We are here for everyone in the whole United States. Aside from having agents stationed all over the country, we also started the E-Balikbayan Box™ which is the merger of the old and new system. This was conceptualized and implemented in 1998 during the resurgence of the internet technology and has been tested and proven by thousands of internet users all over the nation as the fastest & most economical method of shipping to the Philippines. The trade name E-Balikbayan Box™ is also available through our Regional Affiliates, thus giving customers a choice in either using the old fashioned pick-up or the fast and all internet-based balikbayan box system. We also handle Air Cargo, which is the fastest of all our services, and can get your shipment to the Philippines in as quick as 3-5 business days.

For your security and accountability, Manila Forwarder has its own container for its shipments ranging from 20-45 feet in size. Unlike others that simply include their shipments in other company's containers, we are already highly established and have a regular huge volume of shipments in order to maintain a regular flow of shipments on a regular basis using our own containers.

Manila Forwarder Phil, Inc Customer Support Team ready to answer your calls 24/7.

This leads to the fact that aside from balikbayan box shipping, we can also arrange shipments of full container loads of household goods as well as automobile shipments to any part of the world. We provide both Full Container Load (FCL) and Less Than Container Load (LCL) from any point in the United States to any point in the Philippines. Years of experience have allowed us to provide various programs that could be specifically tailored to your needs and budget. Manila Forwarder offers full service shipping wherein we will park the container outside your door and deliver it all the way to the final destination. Our company is regarded as the expert in returning resident shipment to the Philippines as well as other parts of the world. Our accounts include multi-national corporations as well as budget conscious families who would like to make the Philippines their retirement destination.

Manila Forwarder Phils. Inc. and Monark Customs Brokerage (Manila Forwarder's Philippine counterpart) have already prepared for this influx of balikbayan boxes coming from different parts of the world. Additional personnel, computer systems, delivery trucks and equipments have been added to accommodate the continuous growth of the company.

For budget conscious senders who do not require Class A shipping service, Manila Forwarder has a sister company, Balikbayan Box Company. Its shipping price is similar to other companies that offers low shipping price. You may call/contact Balikbayan Box Company at 1.800.918.9056.

This holiday season, we will once again be making a special effort to not only to make your families merry, but the rest of our less fortunate countrymen as well. As we do every year, we will once again be stationing specially marked Manila Forwarder boxes in selected establishments and Filipino stores throughout California. This will give us all the opportunity to be a Santa Claus in someone's life...to be a blessing to someone and make one more child's Christmas an extra special one. Please feel free to donate any new or used items which you'd like to share at any of our drop-off points across California. Let's all work together to spread a little more cheer for the holidays.

So this Christmas, allow us to be your very own Santa Claus by allowing us to be the bearer of gifts for all your loved ones and special someone's across the world. Rest assure that it will definitely be a very merry Christmas with Manila Forwarder! For more questions and inquiries, please call 1-800-210-1019 or visit our website at www.manilafowarder.com.

Happy Holidays!
